ConSASS Workshop

The Singapore Contractors Association (SCAL) together with SC2 Pte Ltd, with the support of the Workplace Safety and Health Advisory Committee (WSHAC), is organising a workshop on the "Construction Safety Audit Scoring System" or "ConSASS" in short.

ConSASS is an audit tool developed by the WSHAC which provides an independent assessment of the workplace safety and health management system (WSHMS) at a construction worksite. It will gather constructive feedback on how this audit tool can improve WSHMS at worksites. Participants will hear from various auditees how they have used ConSASS to audit their WSHMS which will prove valuable for those using the tool for future audits.
