To: Shipping Agents & Cement Consignee

Cement Vessel Reservation System (CVRS) for Cement Vessels Berthing

1. Jurong Port (JP) has taken all feedback from the consignees and shipping agents into consideration and updated the Cement Vessel Reservation System (CVRS) in order to serve our port users better.
2. The revised updated roll-out schedule is as follows:

| Date | CVRS | Berth Application/ Allocation Process |
|---------------|---|---|
| 18 June 2017 | Consignee to start using CVRS to book reservation window (RW) as early as BTR on 15 August 2017 (60 days in advance). Consignees are to input/update timely and accurate information into the system to ensure vessel can berth on time. | Maintained as per current practice i.e. 4 working days before Berth Time Requested (BTR), berth allocation will be based on first-come-first-serve basis. |
| 8 August 2017 | Shipping Agent to start converting berth application (BA) for vessel arriving on 15 August 2017. | Only BAs with a prior RW will be allowed to be converted to a berth application. Berth allocation based on first-come-first-serve basis is no longer applicable. |

For updates on safety-related news and information, please visit www.wshc.sg

3. RWs can be booked up to 60 days before the vessel's BTR. BA cannot be submitted/converted without a corresponding RW.
4. The BA will open 5 working days and close 3 working days before vessel's BTR respectively.
5. Existing berth application process for cement vessels will cease on 08 August 2017.
6. We seek your cooperation to give your full support and look forward to your compliance. You may contact Berthing Office for any enquiries.

Thank you.

Yours faithfully,

Desmond Ong Li Siong
Assistant Vice President, Operations
For Jurong Port Pte Ltd
