Dear Port User

Protect Your Devices: CSA’s Recommended Security Apps

The Cyber Security Agency of Singapore (CSA) has updated its list of recommended security apps to help safeguard your devices from malware attacks and phishing threats.

Security apps	Subscription	Malware	Phishing	Network (new)	Device (new)
Android 					
Avast Antivirus & Security	Free				—
AVG Antivirus & Security	Free				—
Norton360 Antivirus & Security	Paid				
Sophos Intercept X for Mobile	Free				
iOS 					
F-Secure Mobile Security	Paid				—
ZoneAlarm Mobile Security	Paid				

RELY ON US

The above list is intended as a reference to aid users in choosing which security app to download based on their needs and budget.

These antivirus apps were evaluated based on how well they detect malware, phishing, network threats and perform security checks. Other features, like detecting if a device lacks authentication measures (such as biometrics), were also evaluated.

For more information, refer to [this CSA's advisory](#) on recommended list of apps.

Should you have further enquiries, please contact us via our [online form](#).

Thank you.
