1. The importer is required to take up **separate import permits** for a shipment of bulk aggregates that will be transported via truck and the conveyor belt i.e. the importer is required to take up 2 import permits for the shipment.
2. For bulk aggregates that are transported via the conveyor belts, the importers are to declare **“Others” in the “Place of Release” field and “Jurong FTZ Conveyor Belt” in the “Place of Release Address” field.**
3. Above changes are **required by Singapore Customs.**

Compliance with the above requirement is mandatory.
